October 2015 Newsletter

Our office may be closed for lunch.

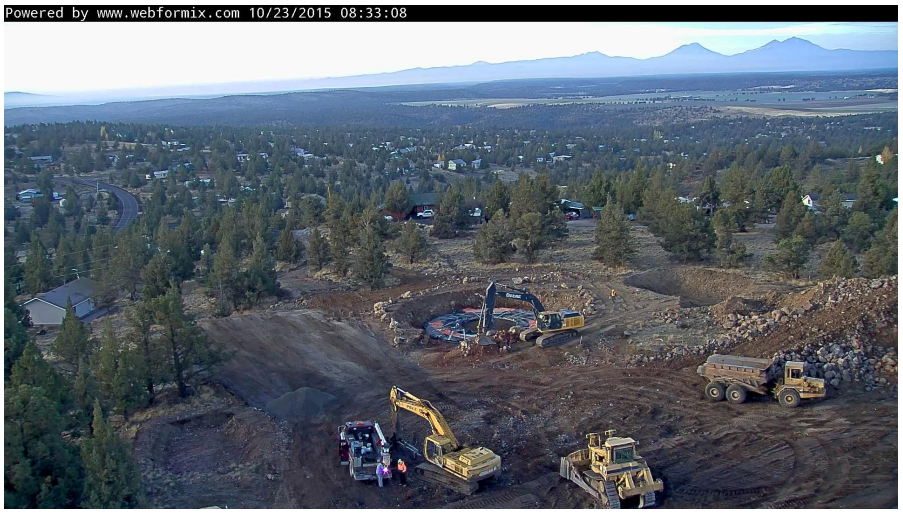
There are times when there is only one person available in our office. It doesn't happen very often but when it does it is important that we give our staff time away from the work area to take their break. When we have this situation our office will be closed from 12:00 to 12:30.

Construction on the New Water Tower and Well started October 5th.

This project is estimated to take 14 months and is scheduled to be in service by November 8th 2016. Over the last month they have blasted and excavated for the tank foundation and all the underground utilities. They also cut in a road for the new water lines that will be going between Basalt and the new facilities. The deep well drilling equipment was brought in and drilling of the new well started on October 26th. Also starting the last week in October will be the foundation team from Landmark the tank builder. The foundation team will be here through the middle of November when a Landmark team which specializes in the building of the pedestal will come in.

Stay up to date with what is happening with construction.

We will be using our website and email notification to alert members of events taking place during construction. Some of the events that will be covered are blasting, transporting of large equipment, road closures, and when major parts of the project start construction. ***To sign up for email notification go to our website www.crrwater.com and click on Email Notification at the top of the home page.***



We will also be broad casting a live webcam of the construction area as the Water Tower is being built along with time laps video. This can be viewed on the front page of our website. The picture to the right was taken on October 23rd. You will also find a photo gallery of the project on our website. Please look for this in early October. www.crrwater.com

Next Scheduled Board Meeting

November 18th, 2015

Located in the Water Company conference room.

Meeting locations are accessible to persons with disabilities
